

# 101 uses for simplyneutral

## Tips on using simplyneutral

- Always use no-scratch scrubbies. Our cleaners will not scratch any surfaces. They are gentle on surfaces, people, and the environment.
- Our non-abrasive cleanser could discolor aluminum. Do not use on aluminum pots, pans, or drains. (Don't confuse aluminum with stainless steel. Stainless steel loves our scrub because we make it shine.)
- Our products can be used in combination of each other, or with vinegar, if needed.
- Whenever using the non-abrasive cleanser, be sure to rinse well or a white film may appear when dry.

= All-purpose cleaner   
 = Non-abrasive cleanser   
 = mix together + to form a paste for tough spots  
 = No VOC glass cleaner   
 = Stainless steel cleaner
